Local Authority tables

Current Method is calculated as per current guidance available at https://www.gov.uk/guidance/housing-and-economic-development-needs-assessment. Proposed Method is calculated as per the approach set out in this consultation. All figures presented are based on data available at the date of publication and should not be considered as definitive for local planning decision or plan making as the inputs to the standard method are variable and not fixed.

All plans annual requirement figures used within the cap (step 3) of the current method have not been fully verified.

All figures are presented to the nearest whole number.

Numbers in italics are not included in regional and national totals to avoid double counting.

Notes:

- 1. Plan numbers are for the local planning authorities that relate to the local authority areas listed, but exclude the plans of National Parks, the Broads Authority and Development Corporations with plan-making powers.
- 2. Under the current method, where joint plans annual requirement figures are not able to split between authorities or where the authorities within the joint plan have requested to be treated together (through HDT delta returns) a joint indicative figure has been issued. Under the proposed method, LHN for joint plans is the sum of the LHN for the individual authorities.
- 3. Under the current method, where a number of LAs within a newly re-organised authority are part of a joint plan, a housing need figure is given at a joint plan level and the remaining predecessor authorities are given a need figure at their former local authority geography.

 4. Where a indicative result of "-" has been noted, the data does not allow for a calculation to be completed.
- 5. Under the current mehtod, a total London number is provided as it is for the Mayor to allocate need within London. For the purpose of the Housing Delivery Test and 5 Years Land Supply individual local authority indicative numbers are provided, but note that the sum of the individual London Boroughs does not equal the London total which is calculated using the SDS. Under the Proposed Method London's LHN is the sum of the London Boroughs.
- ${\bf 6.\ LHN\ for\ Mayoral\ Combined\ Authorities\ is\ the\ sum\ of\ the\ individual\ local\ authorities.}$
